In Two And  
Sinks At Sea

NEW YORK, Jan. 30.—The American tank steamer *Mieler* from Matanzas, Cuba, January 23, for Philadelphia, broke in two and sank at sea, according to a wireless message received here today by the naval communications service. One boat with the chief officer, and 17 men, has been picked up by the steamer *Ozette* and another boat with the captain and 22 men is still missing.

The loss of the tanker was reported by the steamer *Ozette* by wireless relayed through the United States Ship Inspection. The position given by the *Ozette* indicated that she picked up the men approximately 150 miles east of Savannah, Ga. The message reporting the rescue said:

"Picked up life boat containing chief officer, third mate, four engineers and 12 members of crew of tank steamer *Mieler* which broke in two on January 26 and sank. Captain's boat with 22 men of crew still afloat. Heavy northeast seas moderating."

The message was dated at 1:30 a. m. today.

The *Mieler* was owned by the Cuba Distilling Company and she carried a cargo of 1,600,000 gallons of molasses in bulk.

YOUTHFUL  
DANDIT GOES  
TO DEATH CHAIR  
SMILING

OSSINING, N. Y., Jan. 30.—The body of Gordon Fawcett Hamby, notorious murderer and bandit, who was decapitated in Sing Sing prison late last night for the murder of two officials of a Brooklyn Savings Bank in December, 1918, will be buried in a local cemetery today. No one claimed the body and the mystery surrounding his parentage, which he had studiously avoided, remained unsolved.

An autopsy disclosed that the brain of the youthful criminal was "normal" and well developed. Hamby maintained his composure to the last, smiling as he was strapped to the chair, and making a brief oral statement to the warden and witnesses, just before he was snuffed out.

As he left the death house he called out to his companions:

"Good-bye fellows! I always like to say everything once."

The murderer gave three letters to the warden, asked him to mail them and keep the addresses secret.

GOING AFTER  
U. S. AVIATORS

MEXICO, TEXAS, Jan. 30.—Randolph Robertson, United States consul at Nuevo Laredo, at the instigation of Mexican authorities today was sent to Guerrero, Mexico to secure the release of Lieutenants G. E. Jones, and E. F. Davis, American aviators detained at that place. He traveled by automobile and planned to go to Mexico at Zapata, Texas. Consul Robertson said the request came by telephone from Guerrero and that he had been informed the aviators would be detained only long enough to complete certain formalities.

Unique Way To  
Fight Prohibits

LONDON, Jan. 30.—A caricature of "Uncle Sam" with an elongated proboscis bearing the word "prohibition" is soon to appear on labels on every bottle, keg, can and barrel of beer, wine or whiskey sold in Great Britain. The labels, five millions of which have been printed, bear this inscription:

"If prohibition wins there will be no more beer."

Some dealers objected to this wording on the ground that better class customers might consider it vulgar, so a second label has been printed for use by grocers bearing a sketch of an inverted pyramid designated "prohibition" and the warning: "Local option is the thin end of this wedge. Don't let them drive it home."

PREDICTS  
DECREASED  
PRODUCTION  
ON FARMS

WASHINGTON, D. C., Jan. 30.—Decreased farm production next year and a consequent increase in the cost of living, due to dissatisfaction of farmers, was predicted before the Senate post office committee today by James L. Blaklee, fourth assistant post master general. More than 40,000 answers to 200,000 questionnaires sent to farmers he said, indicated a condition "disquieting and portentous of disastrous consequences."

A report summarizing the contents of the farmers' answers prepared by George L. Wood, superintendent of the division of rural mails, was read by Mr. Blaklee. Declaring that "the farmers were predicting before the committee an entirely disproportionate profit for the middleman."

Many farmers, the report said, drew comparisons between the hours of work required of the farmer and his compensation with those of the minnows, the with which the farmer bitterly complains, selling forth the soft and luxurious living of the latter as compared with the hard and bare living of the farmer who is no longer willing to toil and produce for the striker, the profiteer and the short-hours, high-wage man."

Inability to obtain farm labor was another complaint of the farmers. Declaring that the shortage of farm labor was "causing great antagonism on the part of the producer toward the city dweller," the report said, "that the great demand in the cities for labor with high prices and short hours is driving the farm hired help and the farmer's dogs and girls to the city."

The high cost of wearing apparel, of staples not produced on the farm, of farm implements and fertilizers, all of which seem to have filled the farmer's mind with discouragement and resentment, is certain to result in the enrollment of "social excesses" to be singled out as the next on the list of "social excesses" to be attacked."

Declaring that the letters received from 10,000 farmers, with hundreds of others arriving daily, contained alarming information that the country ought to know, the report said that the reply "disclose such a state of mind and feeling on the part of many producers and such a spirit of antagonism toward their fellows who dwell in the cities, as to give cause for grave apprehension."

Edwin T. Meredith is the newest member of President Wilson's cabinet. He was named secretary of agriculture in the shift made in the cabinet to fill the vacancy left by the resignation of Carter Glass, secretary of the treasury. Glass enters the Senate. David F. Houston, who has been secretary of agriculture, becomes secretary of the treasury. Meredith, a Des Moines man, is editor and publisher of *Successful Farming*. He is fifty-four.

DOUBLE  
MURDER  
MYSTERY

CLEVELAND, O., Jan. 30.—With two men dead and another believed mortally wounded, police were working on a double murder mystery revealed early today with the finding of two bodies in Pearl Road. The police theory is that the murders were committed in the city and the bodies carried in an automobile to the lonely spot where they were found. The third man, believed dead by the slayers, probably recovered and crawled away between the time the bodies were found by passers by, who saw three bodies bundled together, and the time the police arrived on the scene.

The murder victims have not been identified positively, but from letters found in their pockets, it is believed they were Sylvester T. Russo, a designer, and Michael Velanzo, both of Buffalo.

Communication with Buffalo by police serves to corroborate the identification. It was said the men started for Cleveland yesterday, Russo to open a studio.

Theatre Folks  
Fear Reformers

NEW YORK, Jan. 30.—Concern lest the theatre be next attacked by "prohibition" reformers is expressed in the current number of *Equity*, the official organ of the Actor's Equity Association, circulated here today.

"The hectic spirit of reform is in the air," says the publication.

"The lottery evil had to go; horse racing faces the prospect of being completely suppressed; dancing in public places has been interfered with as a reported evil; the 'evil of smoking' is being made work of, and the theatre must be prepared to be singled out as the next on the list of 'social excesses' to be attacked."

Declaring that the letters received from 10,000 farmers, with hundreds of others arriving daily, contained alarming information that the country ought to know, the report said that the reply "disclose such a state of mind and feeling on the part of many producers and such a spirit of antagonism toward their fellows who dwell in the cities, as to give cause for grave apprehension."

Efforts At Compromise  
On Peace Treaty FailDEMOCRATS  
QUIT THE  
CONFERENCE

WASHINGTON, D. C., Jan. 30.—The unofficial bi-partisan negotiations on reservations to the peace treaty suddenly came to an end today when the Democratic senators, failing in a last attempt to obtain a compromise on article 10, walked out of the conference and announced they would seek other methods of obtaining ratification.

The Democratic leaders said the next step would not be determined until there had been a consultation among the friends of the treaty. They indicated that nothing would be done for a few days.

The final break came when Senator Lodge, of Massachusetts, the Republican leader, refused to accept a reservation to article 10 drafted by former President Taft and presented to the bi-partisan conference by the Democrats.

EMPLOYEES GET INCREASE

YOUNGSTOWN, O., Jan. 30.—Officials of independent steel companies here would make no definite statement today concerning their course in regard to wage increases granted by the United States Steel Corporation. They said the announcement was a surprise to them and that until it is officially confirmed, they would take no action.

"EUROPE MUST RELY ON ITS  
OWN RESOURCES IN RECOVERING  
FINANCIAL EQUILIBRIUM"—GLASSWife of Columbus Lieutenant  
Claims Little French Stowaway

NEW YORK, Jan. 30.—Georges Pierrot, a 13-year-old French boy, who came to America as a stowaway aboard the Steamer *West Conemaugh*, searching for his "doughboy daddy," was claimed today at Ellis Island by the wife of Lieutenant Howell French, of Columbus, Ohio, as her adopted child. She has asked the immigration authorities to reverse their decision to deport him to France, Lieutenant French, who served

with the 112th Field Signal Corps of the 37th Division, says he first met the lad at Orléans, France. Learning that the youngster was an orphan, Lieutenant French took him in charge and they were pals up to the time of the Argonne offensive. Afraid that the boy might be injured in the fighting, the officer sent him back to the lines to school and that was the last he saw of him until Georges arrived in America.

This was the interpretation here generally of the letter Secretary Glass sent to a committee of the Chamber of Commerce of the United States, which sought a government expression on the proposed international conference of financiers and commercial leaders to discuss reconstruction problems.

In a blunt statement of the facts, as he sees them, Mr. Glass declared: "The American government has done all that it believes advisable and practical to aid Europe."

The conference, he added, would serve to "cause confusion and revise hopes, doomed to disappointment, of further government loans."

The treasury department does not offer objection, Mr. Glass said, if the Chamber of Commerce of the United States which has charge of the details of the conference, wishes to name delegates to an informal conference "provided the scope and character and limitations of such a conference, as well as the impossibility of United States government action is clearly understood."

"If the people of the governments of Europe," Mr. Glass declared, "will, within their incomes, increase their production as much as possible and limit their imports to actual necessities, foreign credits to cover adverse balances would most probably be supplied by private investors and the demand to resort to such impractical methods as government loans and bank credits would cease."

Since the signing of the armistice, Mr. Glass pointed out, the treasury has made direct cash advances of \$2,380,891,000 to the allied governments and in addition has made available \$750,451,000 to those governments thru' covering United States expenditures in Europe. Besides the United States has sold on credit approximately \$85,000,000 in supplies and has extended approximately \$100,000,000 in relief as well as allowing to accrue \$24,211,000 in unpaid interest on loans.

WASHINGTON, D. C., Jan. 30.—At the request of the railroad administration, Acting Secretary Crowell of the war department, today signed an order commanding 120,000 tons of steel rails to be allotted among rail roads on the basis of their productive capacity. Compensation in most cases will be decided later, on the basis of actual cost plus a specified profit, but in a few cases price agreements with the producers already have been reached.

### GETS VOTE OF CONFIDENCE

PARIS, Jan. 30.—The cabinet of Premier Millerand was given a vote of confidence in the chamber of deputies today at a session attended by virtually all the members. The vote was 310 in favor of the ministry to 10 against it and with no abstentions from voting.

Ancient Man much wiser.  
A great civilization flourished in the valley of the Nile some three thousand years B. C. These Egyptians worshiped the dung beetle, the scarabaeus, possibly recognizing its scavenging powers. The well of Joseph, near the great pyramid, is excavated through nearly three hundred feet of solid rock. The ancient Hebrews were the founders of real public health. The laws of Moses, who was born about 1600 B. C., the first hygienic code known, apply about as well today as when first promulgated.

Wage Successful War on Pest.

The worst enemy of the grape growers in California is a minute insect called the "thunder fly" because it appears in greatest numbers in hot and sultry weather, when thunder storms are frequent. A man out there has invented a suction apparatus, with a ten-horsepower blower, that is placed on wheels and driven through the vineyards, harvesting the pests from the vines as it goes along. It is said to work very successfully.

Both the physician who prescribes and the pharmacist who sells liquor, regulations provide, must have a permit, which may be obtained from Federal Prohibition Directors.

Washington, Jan. 30—Methods by which intoxicating liquors may be obtained for medicinal purposes and detailed regulations governing their sales were made public last night by the Bureau of Internal Revenue.

Announcement also was made that the bureau had compiled a system of permits, providing a definite and fixed channel through which all intoxicating liquors must move and by which hereafter the Government will know the location of every gallon of distilled liquor within the nation's boundaries, except that stored in private homes.

In setting forth the way in which liquor may be prepared, Commissioner Daniel C. Hooper took occasion to issue a warning against profiteering in it.

The Commissioner declared that excessive charges for liquor for medicinal purposes "certainly places the dispensers thereof in the class with profiteers and they will be investigated."

Mr. Hooper also announced that all liquor seized under Federal law prior to last October 28, unless claimed under the 90 day's ruling, would be sold by order of the court under the jurisdiction of which it is held. It must be sold, however, to a holder of a permit, to use it either for medicinal or non-beverage purposes.

## Chas. Appel Of Lucasville Awarded Gold Medal

COLUMBUS, O., Jan. 30.—Eleven, id since the contest was started three years ago. Others who received medals in the acre on plots of land were: Richard Hedges, Ashville; J. C. Farnsworth and wife members of the Olds Corn Club today at Ohio State University.

This contest is conducted annually by the University.

C. L. Mack of Pleasant Valley, Muskingum county, is the corn champion of the state. He averaged 124.8 bushels to the acre, the highest record.

## SWITZERLAND EATING SWISS CHEESE MADE IN AMERICA

COLUMBUS, O., Jan. 30.—Switzerland, long the home of the famous Swiss cheese, is now eating Swiss cheese made in America. This surprising information was brought to Ohio farmers attending farmer's week at Ohio State University by A. C. Wehrer, cheese specialist at the United States department of agriculture. He warned Ohio farmers in addressing them at the Ohio State University to day.

The propaganda which has been spread in this country that America could not produce the high grade of cheese that is produced by Switzerland is answered now by our exporting Swiss cheese to the very same countries from which we imported only a few years ago," he said.

"This indicates that there can be quality in our goods as well as demand for them."

Unless the road is kept open so that

## 500 MILE TELEPHONE WEDDING IS LATEST

HUNTINGTON, W. VA., Jan. 30.—Huntington, W. Va., and Kane, Pa., city of some 30,000 people, will be the two ends on Saturday evening at 6:30 o'clock of a 500-mile telephone wedding.

The principals will be Fred Wigley, age 27, a glass worker, of 318 Thirteenth street, and Miss Tillie Edwards, 22, of Kane, Pa., and daughter of Mr. and Mrs. Almon Edwards, of Clarksburg, W. Va.

Cupid will be assisted by Rev. W. B. King, pastor of the First Methodist

church, of this city; and a minister of Kane—also "Miss Long Distance," telephone operator of the Huntington exchange.

In addition to the fees for the ministers, the wedding will cost about \$200 in telephone bills. It is not known how long the ceremony will require less than ten minutes.

Miss Edwards will stand at a telephone in the residence of Mr. Wigley's parents in Kane. The Hunting

ton end of the ceremony will be at the telephone exchange.

## SALEM

Carl Bonzo has returned home after a few days stay with his sister, Mrs. Delia Vangard of Portsmouth.

## LIKE ELECTRIC BUTTON ON TOES

Tells Why a Corn Is So Painful And Says Cutting Makes Them Grow.

Press an electric button and you form a contact with a live wire which rings the belt. When your shoes press upon your corn it pushes its sharp points down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns,

which merely makes them grow, just

step into any drug store and ask for a

quarter of an ounce of frezose. This

will cut very little but is sufficient to

remove every hard or soft corn or callus

from one's feet. A few drops applied directly upon a tender aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain.

This drug is harmless and never inflames or even irritates the surrounding tissue or skin.

There is a close relation between the farmer's economic problem and the problem of better living on the farm," said Mr. Tipton.

"It is important that the farmers should have conveniences on the farm, providing soil factory, social life in order that the young men may be content to remain permanently in the country. This is needed to overcome the movement from the country to the city, which is depleting the farm population at the present time."

Following deviative action to increase the nation's food supply through co-operation with the farmers, to apply to the canning industry an inspection system to insure the purity and wholesomeness of canned foods and to carry forward intensive scientific research to reveal improved canning processes, the National Canners' Association closed its annual convention here today.

The national canned foods and dried fruit brokers and the canning machinery and supplies association held joint convention with the canners.

Representatives of the leading firms

in the American canning industry

agreed to commit themselves to a self-imposed sanitary inspection system to be controlled from the National Canners' Association's headquarters at Washington.

"This inspection is certain to protect the family table from canned food products below standard, for it is more rigid than any ever provided by state or national laws," W. J. Stoen, Chillicothe, association president, declared.

Canners stand ready to join any movement to help remedy the present situation of food shortage and high prices, Frank Gorrell, secretary of the National Canners' Association said. He suggested that all great divisions of business and industry join in concerted action in this end.

WANT HOOVER'S NAME

ON BALLOON

LANSING, MICH., Jan. 30.—Petitions to place the name of Herbert Hoover on the Democratic ballot to the presidential preference primary April 5 were received by the secretary of state this morning. The petitions lacked the required 100 signatures but it was indicated additional signatures would follow.

**SOCIETY**

A wedding of unusual interest was

that of Mrs. Annette Hathaway Kell

hoffer to Russell Cartwright Wilton,

which was solemnized at 12 o'clock

Thursday noon at the home of the

bride's mother, on Carliele Hill, in the

presence of twenty-eight relatives and

close friends of the couple. The beau

tiful ring service was used by Rev.

George K. Johnson of St. Paul's Epis

copical church.

Mrs. Jessie Hillard presided at the

plane of the bride and groom entered

attended by Mrs. Henry Breth, sister

of the bride, and Horace Strong,

brother-in-law of the groom.

The bride was lovely in a blue

Georgette gown, fashionably

and beautifully embroidered in brown.

Her only ornament was a platinum bar

pin set in diamonds, the gift from

the groom, with a corsage of Orchids

roses and primroses.

Mrs. Breth wore a brown Georgette

gown with head trimmings. She also

wore a corsage of pink roses.

Calvert Lucas served as fire chief

luncheon at small tables centered with rose bouquets.

As the bride ascended the stairs to

don her traveling costume, she tossed

her bouquet and it was caught by Mrs.

Mary Keyes.

Out-of-town attendants were Mrs.

Frank Wilton and daughter, Miss

Dorothy, mother and sister of the

bride, and Horace Strong, of Bridgewater.

Com: Mr. and Mrs. Seymour

Facsimile of the memorial diploma.

The French high commission in Washington, in the name of the French Republic, will present a memorial diploma to the nearest kin of Americans who died in the service of their country during the world war. The presentation will be made on Washington's birthday, February 22.

Miss Alberta Robinson will come home on Ninth street. The pictorial decorations were of pink and green and the attractive refreshments were heart shaped ices and cakes with pink baskets of candies for favors.

The announcement of the engagement of Miss Bertha Brebner to Clarence Collins, of Columbus, and Miss Stella Dages to Roy Maxwell of St. Joe, Ind., was made, the names of the principals appearing on the dining plate cards.

A girl dressed as a bride formed an attractive center piece. Guests were 140 for the two honor guests, Mrs. Ralph Peal, Mrs. James Vanhorn, and Misses Midge Bissell, Luisa Evans, Louise Smith, Alma Bode, Helen Heil and the hostesses.

Mrs. Haydon Bush was hostess of the meeting of the Sodas Bridge Club on Thursday afternoon in her home on Second street. Mrs. Clifford Kline, Mrs. J. F. Davis, Mrs. Earl Harbin and Mrs. W. R. Sprague were guests for the afternoon.

## DRY FEET THE BEST FLU PREVENTATIVE

All shoes are not as they look—some look well, when new, and should dry weather always prevail, might answer the purpose. But when damp weather comes—and it will—then those nice looking shoes may spring a leak like an uncorked John boat.

When you buy your footwear here, you can rest assured that they are quality thru and thru. Don't take a chance. Good shoes cost real money these days, but while we always undersell competitors, nevertheless good shoes may mean that you will ward off the flu—and to do that they are worth three times what we ask for them.

# PROFIT SHARING SALE

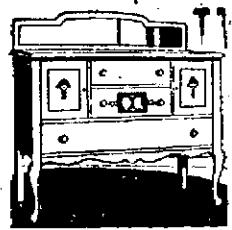

The Largest Furniture Sale Ever Conducted In The City Of Portsmouth.

The entire stock of the D. A. Alspaugh Furniture Co. has been purchased by us at an average of 40 per cent less than its market value. These goods represent Mr. Alspaugh's purchases of high grade furniture during 1918—delivery of which were made mostly in the spring of 1919 and some even later.

With the present scarcity and steady increase in price of desirable furniture it would be very easy for us to earn a handsome profit on these goods. But it is our desire to secure the good will of the people of Portsmouth and to make this store your headquarters.

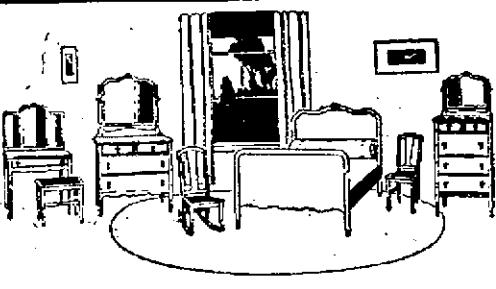

We have, therefore, decided to share with you our fortunate purchase by inaugurating this Profit-Sharing Sale—a visit to our store tomorrow will be to your interest.

COLD, DAMP DAYS  
SAP YOUR STRENGTH—  
USE DUFFEE'S

Cold, damp days, when people are compelled to be out of doors, undermine the resistance to colds. Especially is this true with children, who do not always take care of themselves, getting wet and chilled. It is of utmost importance for the caring mother to have at hand a certain and harmless robust remedy.

For over thirty-five years Duffee's Cough Syrup has been the reliance of a great number, and it has always proved a safe treatment, because it is as harmless as it is effective. No matter how severe the cold, in adult or child; no matter how annoying the cough, or how long it has existed. Duffee's Cough Syrup may be depended upon. For that reason thousands keep it in the house against the time it is needed, for quick action prevents suffering. Get a bottle of pure syrup or druplets for 25¢ or 50 cents and prove its value to your family.

## Sciotoville And Wheelersburg

SCIOTOVILLE

Mrs. Zora Todd and daughter, Miss Bessie, are ill with grip at their home on Broadway street.

Ash Davis, the famous cartoonist, who appeared in the local M. E. church last evening as the third number of the Methodist Christian lecture course, was greeted by a large and appreciative audience. Soon after Mr. Davis began his entertainment the audience decided that this number was the best that had been given during the entire course. The cartoon consisted of hand-sewn, various others and a number of humorous cartoons which made the program as interesting to the older people as well as to the children.

The Foreign Missionary Society of the M. E. church had a very interesting meeting Thursday afternoon in the church with several members present. A number of interesting talks were made by several of the women that object being to promote Foreign Missionary work among the home people. Mrs. Theodore Rumpf of Sciotoville, is spending a few days in Cincinnati.

Mrs. Sophie Stockwell, who has been ill sometime at the home of her son, Albert Stockwell of Woodland avenue, is slightly improved.

Pauline Bell, little daughter of Mr. and Mrs. Otto Bell of Woodland ave. is ill.

Samuel Miller of Center street will have Saturday for a few days' visit with his father Judge H. C. Miller, of Jackson, who suffered a broken hip a few days ago when he fell on the icy sidewalk near his home.

Mrs. Samuel Bruck and little daughter, Louise, of Center street, are ill with grip.

Mrs. Chester Conklin of Center street, spent the day with relatives in Portsmouth.

Mrs. William Rutherford of Fourth street was the guest today of Mrs. Henry Bechler of Grandview avenue, Portsmouth.

The Senior choir of the M. E. church will meet tonight at 7:30 o'clock at the home of Mr. and Mrs. Kurt Heile, Main street. All members are asked to be present.

WHEELERSBURG  
C. E. Price was a business visitor to the city today.

Miss Mary McMakin of Dogwood Ridge was shopping in Portsmouth, Thursday.

Mrs. Joseph Scherer (Nellie Barnes) of New Boston, spent yesterday with friends here.

Mr. and Mrs. Clarence Preston and daughter, Kathryn, of Paintsville, Ky., are the guests of Mr. and Mrs. John Ginkelman of D. Good Ridge.

Mrs. Joseph Bratt of Portsmouth spent Thursday with her aunt, Miss Mary Maynard.

Mrs. Otto Haffner and daughter, Muriel, of Trouton, are the guests of Mr. and Mrs. John Haffner.

The third number of the Lecture

Course was given Tuesday evening in the High School auditorium and was witnessed by a large crowd, the audience being packed to its capacity.

Ash Davis, the cartoonist, furnished the amusement for the evening. His humorous cartoons were greatly appreciated and also his humorous sayings as he twisted himself drawing the pictures, while the cartoon seem much more a trifle. The hand cape scenes were also very attractive and special mention is made of the success which up, came more attractive to the audience.

## Excelsior Foremen Hold Fine Meeting

One of the best sessions of recent proved very interesting to all present. Other talks were made by Fred Williams, sales manager, on "Excelsior Foremen's Association." The session last night included road park and all the trimmings. Following the supper a splendid program of talks was enjoyed.

A most welcome visitor was A. V. Love, of Tacoma, Wash., who worked in the Excelsior shoe factory when it was located at Third and Gay streets. He is now in the wholesale dry goods business with Love, Warren and Moore. He talked very interestingly of the early life of the present flourishing shoe company and expressed surprise at its rapid growth.

J. R. Wilcox, the new manager of the Portsmouth Chamber of Commerce, was also a guest and he gave a talk on "A Modern Chamber of Commerce" and urged the members to co-operate in making Portsmouth a bigger and better city.

W. H. Ware, who has been a salesman for the company a number of years, gave an entertaining talk on "Selling Shoes on the Road." Frank Bishop, one of the factory's youngest salesmen in the matter of years of service on the road, made a few remarks on his experiences, which were

### Gentry Is Minus Watch

CHILLICOTHE, O., Jan. 30.—John "crook" and asked Gentry to hold him until he went after another. Gentry, Lucasville, extra operator at Renick's, just south of the city, has a watch but isn't as fond of it as he "crook" said: "What would you do if I decided to leave?"

A few nights ago an "N. & W. detective" walked into the tower with a to be given to the "crook" left. A few

minutes later the "detective" came back with another "crook" and inquired concerning the whereabouts of the first "crook."

When he learned he had left he decided to take the second "crook" to the police station. When he had been gone long enough to distract this little job, he returned.

Gentry's watch was lying on the table. The "detective" asked to borrow the watch while he timed the operation of an engine taking on water, and stated that he would leave his Ingersoll for use while using the railroad watch.

The pseudo-detective is still using the watch.

Please to Taste

The pale, nervous, always-tired type of young business woman is a liability both to herself and to her employer.

How the bright, laughing, energetic type of girl is admired in business. Her sunny disposition, enthusiasm, and general efficiency combine to make her a valuable asset to her employer.

If the girl with the continually listless, tired and worn out feeling would only realize that such a condition is probably caused by poor, impoverished blood which can be easily improved, how much happier she would be!

After taking Pepto-Mangan for a short time, the cheeks regain the wholesome, rosy complexion, the eyes sparkle, the step quickens, the entire system is filled with new vitality and energy.

Pepto-Mangan is sold in both liquid and tablet form. Both are of the same medicinal value.

"Gude's" is the genuine Pepto-Mangan. If "Gude's" is not on the package, it is not Pepto-Mangan.

### Inspiration Generally Earned.

There seems to exist a tendency to ascribe inspiration to a process which is the result of a preliminary effort. Many have noticed that, after long and fruitless mental effort, the result for which they have been striving comes to them suddenly while they are thinking of something entirely different. The preliminary mental toll has borne its fruit subconsciously.

## Our Annual February Clearance Sale of Furniture

For years it has been the custom of this store to offer two clearances sales—one in February—to balance our stock after the heavy buying of the winter season. This year, though merchandise is harder to get and it will cost us considerably more to replace the goods offered, we still feel that we should follow our regular custom and offer a 20 per cent reduction on every piece of furniture in our stock.

This is simply a clearance sale to clear out broken lines, odd suites and the like—the 20 per cent reduction being offered to make these values more attractive to you. Coming at a time when prices are naturally high and with no probability of their dropping for several years, we recommend this sale to anyone interested in getting high-grade home furnishings at a substantial saving.

### A Sale Without Camouflage

We tell you very frankly this is a clearance—our regular February sale—to balance stock and to make floor room to show our new spring goods, soon to arrive. It is a sale based on 100 per cent truth—the reductions being exactly as we have represented, 20 per cent off from the regular price of every piece in the store. The old price tags remain attached—you simply deduct one-fifth and count that your saving by buying now. This is a sale big and true—typical of this institution.

### A Sale Full of Savings

Furniture prices as you have been warned, are mounting higher—the wholesale quotations at the recent market showed an increase over any previous. Further increases are not unexpected. That is why we call this "a sale full of savings." With prices certain to be as high, if not higher, for several years to come, you can readily understand why it would be well to anticipate your needs in home furnishings and buy during this sale. Remember, if you so desire, we will store your purchases until needed.

### MINFORD

A large crowd of relatives and friends attended the funeral services here Sunday over the remains of Rev. J. C. Walker, who died Friday at his home. About 500 tickets were sold here and about \$100 was cleared for the stated services.

The small service was seriously crippled in the eastern part of the country on account of high water, and blockades of roads caused by falling trees which were loaded with ice.

Allen Krook, Salem, is suffering from a lame back caused by a fall on the ice.

Cliff Erwin, Oak Grove, intends to move to central Ohio in the spring.

The ice sheet which covered the ground for several days did a great deal of damage to orchards and timber.

Jack Lansing, Bremen, has moved to the northern part of the state where he will engage in farming.

S. W. Sheemaker and Cliff Erwin, Oak Grove, arrived home Friday from South Charleston, Ohio, where they had gone to attend the funeral of the infant child of Mr. and Mrs. John Erwin.

## ADDRESSED EMPLOYEES

A. D. Troxel, local superintendent of the Western & Southern Life Insurance Co., sent out an S. O. S. call to many collectors, Wednesday, when Judge William B. Lueders of Cincinnati, grand master grand chief of the Grand Lodge of Ohio, K. of P., accompanied by Mayor William N. Gableman, dropped into his office in the Masonic Temple.

Judge Lueders is one of the directors of the Western & Southern Life Insurance Co., and a close personal friend of Capt. Troxel. The latter suggested that the distinguished guest make an address to the local collectors and within a very short time all of the employees gathered in the local office, and were addressed by Judge Lueders. He complimented the collectors and office upon the splendid record being made in Portsmouth, due in a large measure to their uniting efforts and to the strength of the company. Mayor Gableman added a few remarks and the affair was one of the happiest by the life of the Western & Southern employees.

### COUNTY NEWS

Rev. J. C. Cupp who is conducting a series of revival meetings at the Christian Union church, Olmey, is having quite a bit of success, there being thirty additions made to the church in the last two weeks. Rev. Cupp is a very enthusiastic speaker and is arousing much interest by his interesting sermons. Each evening shows an increase in the audience, which shows the meetings are progressing nicely.

A son was born Tuesday to Mr. and Mrs. Ray Blackburn of Olmey.

Christopher Hockstein, aged resident of Olmey is ill with hardening of the arteries. Mr. Hockstein's condition is serious and little hopes are held out for his recovery.

George Lavellecker who has been ill with grippe is slowly recovering.

Fred, small son of Mr. and Mrs. A. B. Jones of Olmey is slowly recovering from an attack of pneumonia.

### WITH THE SICK

Ralph Jackson employee of the Drew stone factory is ill at the home of Mr. and Mrs. Jacob Smith, High street. He fell recently and injured his hip and in the last few days has developed pneumonia.

## THOUSANDS DIED OF INFLUENZA

Doctors Sound Early Warning to Prevent Recurrence of Dreaded Malady This Year.

Avoid closed rooms where there are a number of people. Sleep with your windows open, use a good gargle at night before retiring and every morning when you arise. Take salt and water can be used for this purpose. Keep yourself in good physical condition.

Get a box of Blacko Tablets from your druggist. They are easy to take and contain no calomel. One for adults and half of one for children taken every other night at bed time will assist nature in providing a gentle, safe acting laxative that will keep the system thoroughly cleaned and free from germs.

The influenza germs enter the body through the nose or mouth and are carried to the intestines with the mucus. A certain condition prevents the bowels from throwing off the poisonous matter allowing the germs to enter the system.

Blacko Tablets are sold by all drug-gists at 25c per box.—Advertisement.

## Was Worried Over Wife's Case

"Yes, sir, I can recommend Taniac and I am glad to do so after what it has done for my wife," said Henry Rodeman, a farmer, living near Walbridge, Ohio, ten miles from Toledo, white in Newcomer's drug store in Toledo, recently.

"For the past three years," Mr. Rodeman continued, "my wife has been in extremely poor health. Her appetite was so poor she just had to force down every mouthful she ate. She suffered terribly from indigestion and after every meal complained of a stuffy, distressed feeling in her stomach. She would have weak, faint spells and at times get so dizzy it was all she could do to keep from falling. Now what she would do kept getting worse and grow weaker and weaker every day, and I was getting worried over her condition.

"While in Toledo about three weeks ago a friend of mine who knew of my wife's poor health advised me to get her some Taniac. Well, I carried a little home the next day, and I want to say it proved to be exactly what she needed, for I never saw anything to equal it. I sent to town and got another bottle and I am here today for the express purpose of getting her two more."

"Why, sir, I think it simply wonderful the way Taniac has helped her. Her appetite is so good she is hungry all the time, and can eat just anything she wants and everything agrees with her perfectly. She is gaining in weight every day, and has regained her lost strength so now she does all her work around the house without its worrying her a particle. As I said before, I can recommend Taniac, and I am mighty glad I've had this opportunity of telling how much I think of this great medicine."

Tanic is sold in Portsmouth by the Fisher and Stroh Pharmacy and the leading druggists in every town.

Thru a deal closed Friday Wharf master F. B. Winter has disposed of his holdings to Capt. W. D. Kimble of Huntington and Captain Godros C. Green, who is at the head of the Green Line Steamers.

They took charge immediately and Captain Kimble, who is a cousin of Attorney H. F. Kimble of this city, will be in charge of the temporary wharfboat and the old one when raised at Manchester and brought back to Portsmouth.

Consummation of this deal gives the Green Line owners wharfboats at Cincinnati, New Richmond, Mayville, Manchester, Vanhook, Portsmouth, Union, Ashland and Charleston.

Captain Kimble is one of the best known river men on the Ohio and has been in charge of the General Wood,

and Captain Green is in charge of the wharfboat for four years, having purchased it from Hornbrook and Donnelly. He is well known along the Ohio and owners of the various crafts plying the local trade will regret to learn that he will no longer be identified with the river interests here.

John Jones Sells Fine Home To D. A. Alspaugh

Through a deal closed Friday, John Jones sold his handsome home on Second street to D. A. Alspaugh. The consideration was \$10,000, and payment will be given same time in April, according to Mr. Jones. He and his wife have occupied it for many years.

Several years ago Mr. Jones remodeled the property and added a spacious brick porch to it.

ENTER PROTEST AGAINST ATHENS MAN

Immediately on receipt of the information that Athens High had engaged Fingerhut, of Syracuse and O. U., to referee the Portsmouth-Athens High basketball game at Athens Saturday night, the athletic council of P. H. S. met yesterday and telegraphed its protest to the athletic management at Athens High of the selection of Fingerhut to referee the argument.

With the advice that Don Hamilton, a Notre Dame man, of Columbus, or some other neutral official, be in charge of the game.

According to P. D. Moore, faculty advisor on the athletic council, and Coach Robert C. Hess, Fingerhut, who resides at Athens, in officiating in previous games, has been inclined to show partiality towards Athens.

Don Hamilton had charge of the state tournament last year, and is a capable and efficient referee, and if he can be secured, will make an official satisfactory to both teams.

Portsmouth and Athens High schools are tense rivals, and to prevent any ill-feeling or slippage the athletic council has taken this action.

RED CROSS IS ANXIOUS TO LOCATE WOUNDED SOLDIERS; WILL YOU HELP?

Wandering aimlessly, caring not where, but driven by a blind impulse to keep on the move, there are soldier boys travelling over the country. In every case, these boys have been wounded, so they now carry some distinguishing mark. At times, they have been able to tell enough of their home surroundings to be recognized by a spurious place.

Not one of these boys has been able to be notified, but they have drifted on.

Photographs of such missing boys have been sent to the Director General of the Red Cross at Washington, D. C., and printed slips with a description of the boy have been mailed to all the Home Service Sections of the country, requesting that they be posted in a conspicuous place.

ALL PEOPLE, AND ESPECIALLY EX-SERVICE MEN, ARE REQUESTED TO WATCH THE WIN-DOWS OF THE LOCAL RED CROSS BOUTIQUE ON THE GALLIA AVENUE, TO SEE IF THE BOYS PICTURED THERE HAVE EVER BEEN SEEN IN THIS LOCALITY OR IF ANYTHING IS KNOWN OF THEIR WHEREABOUTS. SHOULD YOU KNOW ANYTHING ABOUT ANY OF THESE BOYS, PLEASE NOTIFY RED CROSS HEADQUARTERS.

TRAFFIC RESUMES ON THE OHIO

The steamer Tacoma passed un-filled with ice. Traffic has been re-

sumed for Charlevoix and was the first boat to arrive here, in three it was announced today by River Of-

ice to come to the Ohio having been served F. B. Winter.

Motion has been filed by the industrial protestants of Charleston and the chamber of commerce of the city of Huntington, asking that the case be reopened and another hearing granted.

The commission has set next Tuesday, February 3, as the date for this re-hearing.

EPIDEMIC OF MILD FLU AT COLUMBUS

COLUMBUS, O., Jan. 30.—Twenty-two new cases of influenza were re-

ported to the city Board of health today. One death due to influenza was also reported. The total number of influenza cases reported yesterday was 135, most of which were said to be mild.

Five deaths from pneumonia, two of which could be traced to influenza, were reported to the health board yesterday.

# ASKS POLICE TO LOCATE WIFE

Rev. Tyrus Collier, blind preacher, formerly of Harden, who has been residing in this city for several months, appealed to the officers yesterday to aid him in finding his wife, Minnie Collier, who has been strangely missing from their home on State Street for several weeks, he says.

Rev. Collier for several days following the disappearance of his helpmate believed she had been murdered, but an investigation made by the officers, assisted by Collier, did not bear out this theory, although the husband persisted in making the claim that he heard her scream and call for help on the night she went away.

A subsequent investigation, Collier

declared yesterday, had disclosed the statement that he had received information that his wife was stolen from him by another man, who, he says, is named Hickman. He says he was about their home a great deal of the time and is also missing. Collier

brought them back to Ohio.

# Verdict For \$7,500

A verdict for \$7,500 was given last night by the petit jury in the personal injury damage case of Charles B. Eads against The Portsmouth Street Railway and Light Company, which has been on trial in common pleas court since Tuesday. Attorneys Miller and Bear, for the defendant, excepted to the verdict and notified Judge Thomas they would file a motion for a new trial.

The jury deliberated on the case 6 hours and returned their verdict into court shortly before 10 o'clock last night. The entire panel concurred in the verdict, which is the largest ever returned by a Scioto county jury in a personal injury case.

In this case Eads, whose home is at Lynchburg, Va., sued for \$50,000 damages for personal injuries he sustained in an accident which occurred on Eleventh street, near Lincoln, on April 17, 1917, when a street car on which he was a passenger was "side-swiped" by another car. He claimed that his arm, which was resting on the window sill of the car, was jolted out by the crash and crushed off between the car and the curb.

The defense contended that Eads needlessly projected his arm out of the car window and thereby contributed to his own negligence to his injury.

Attorneys D. P. Hulsey, Lynchburg, Va., and F. W. Moulton, of this city, represented the plaintiff, opposed by Attorneys Miller & Bear for the defense.

# COX MAY VETO NEW TAX RELIEF MEASURE

COLUMBUS, O., Jan. 30.—There was no durable speculation today as to what action Governor Cox will take on the bill passed by the legislature late yesterday, authorizing local taxing districts to exceed the present limitations of the Smith 1 percent law for sinking fund and interest charges when the voters over his veto.

## TRIBUTE TO MISS MARGARET HEFFNER

Our loved one has departed,  
Her voice we no more hear;  
We'll clasp her hand in that great land  
Before this vale of tears.

For she could harm or sorrow none,  
Death came with friendly care;

The opening bud to heaven conveyed.  
And bade it blossom there.

This lovely bud, so young, so fair,  
Called hence by early doom,  
Just came to show how sweet a flower  
In paradise would bloom.

## SALE OF BABE RUTH BY FRAZEE IS BASEBALL'S BIGGEST BONE PLAY

BY N. E. BROWN

The reported sale of Babe Ruth, the wonder slugger of baseball, by the Red Sox to the Yankees for \$125,000 stands out as the greatest deal ever engineered in baseball.

It also stands out as the greatest bone in the game's history.

As far as Babe Ruth is concerned, it is worth the price—and trouble that amount. If he hits at his full clip he will fill the Polo grounds seventy-seven times next season. The Polo grounds holds about 35,000 people. Figure the profits yourself.

But Harry Frazee, baseball's troubleshooter, has betrayed the confidence of the Boston fans. When he sold Babe Ruth, Frazee sold out the

fans, too. Ruth was the man the fans worshipped—and paid only to see perform. When the team dropped out of the pennant race last season the park was full each day because of Ruth's presence. These fans have been counting the days until they could get another look at Babe and watch him smash more records.

Frazee never has been popular in Boston. His disposition of Marx and other stars soured the fans on him.

Ruth was their only solace.

The sale of Ruth is the last straw. Frazee,

by that more, has sounded his own death knell in baseball—unless he has

millions to throw into what cannot be other than a losing venture.

Boston fans will not support his teams. Joe Lannin can tell him that. Lannin has been through the same thing. Charlie Somers can tell him.

And now—for the motive behind the deal.

The sight of a check for \$125,000 did not tempt Frazee to part with Ruth. Babe's alleged demands for more pay did not influence the theater magnates. To my mind, the real part

through quietly with Colonel Ruppert of the "Yanks" was engineered

as another blow to President

Ban Johnson.

The sale of Carl Mays, a lesser light

compared to Ruth, prompted this deal.

Encouraged by success in getting the

support of the court in the Marx case,

it looks as though Frazee and Ruppert

deliberately concocted this Ruth

deal to cause Johnson further trouble

and try to further weaken his grip

on the league rights.

It is significant that Ruppert,

in concluding his first statement

regarding the deal, definitely

said: "Whether Johnson likes it

or not, Ruth will be in our open-

ing lineup." And this before John-

son had said a word.

Ruppert's action will not have the

support of fandom in general because

it will have been Ruppert's coin and

not his baseball brains or Miller Huggins'

efficiency which will have won

the flag if the Yankees cup it while

Ruth is with them.

The Ruth deal is a great tribute to Ruth.

The sale has given baseball bugs

the big thrill of the game's history.

But, considering it in relation to

the advancement and general better-

ment of the game, the deal is the

COLOSSAL BONEHEAD PLAY OF

BASEBALL.

This sale will go down in the history of local merchandizing as the most gigantic money saving event of all times. Our sole purpose is to make "The Bon-Ton", Portsmouth's most popular women's store. We have assembled garments that will appeal to the best dressers, chic and novel-new and natty and we are going to close them out within one week's time to make room for new Spring goods. The prices during this great Anniversary Sale are less than wholesale in many instances. Every woman and miss should take advantage of this great money saving opportunity, never has there been such a sale held in Portsmouth, and there won't be another for a long time to come. Read this "ad" carefully and come prepared when our doors open, as it will be to your advantage.

# THE MOVIES

Alice Brady in  
*The Fear Market*, REALART PICTURES  
Alice Brady's First Picture for "Realart" Picture Corporation at the Columbia  
Theatres Tonight and Tomorrow

The most elaborate production for the screen she has ever appeared in, Alice Brady has finished work on "The Fear Market" by Amelia Hiltz, as a Realart feature. Clara Beranger has made an adaptation for the screen from the play in which Edmund Gwenn and Sidney Shields scored a great success four years ago. This will be the last picture Miss Brady will make before she goes on tour with her husband's stage troupe. "Forever After," and the scenes will be taken while she is playing the Subway Circuit in the tenor.

In "The Fear Market," Alice Brady's newest Realart picture, Miss Brady is afforded an opportunity to wear more beautiful clothes and a greater amount of them than she has been in many of the Columbia's tonight and tomorrow. The first half of the picture is laid in Italy and the script calls for elaborate sets of Italian gardens, villas and certainly is fashionable.

Anita Stewart in  
*Mind the Paint Girl*  
Anita Stewart's latest production  
comes to the Lyric Tonight  
And Tomorrow

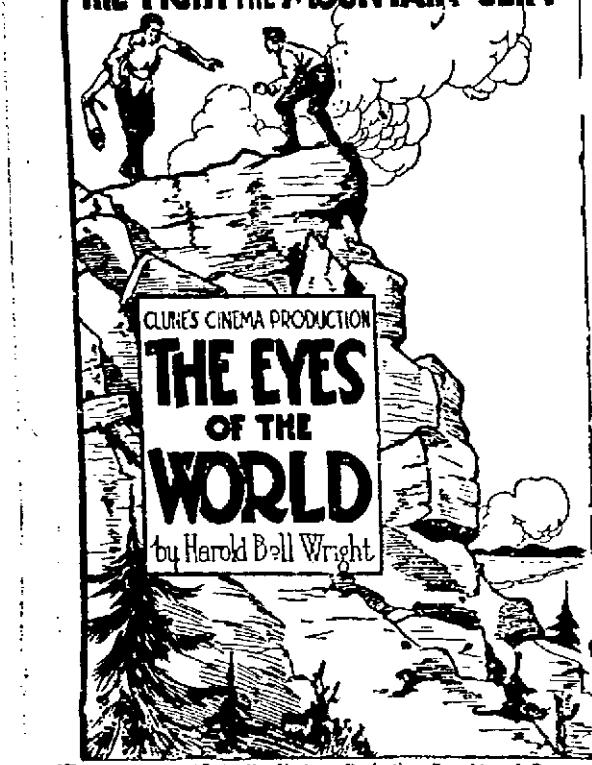

Anita Stewart's latest production comes to the Lyric Tonight and Tomorrow. Anita Stewart is shown in practical

ly two characters in "Mind the Paint Girl," a first National feature which will be shown at the Lyric Theatre tonight and tomorrow. First she appears as the little shop girl who sweeps out her father's shop and runs errands and does and handy work to make ends meet for her parents who are very poor. As the shop girl she is shown in more or less rugged calico dresses, with her hair hanging down her back and lots of paint splatters on her clothes. Then she gets an opportunity to sing and make the hit of the season.

"Then as the famous can-can girl and the world at her feet, she is presented in beautiful gowns of every and less impossible styles. General and description, gowns that every woman admires yet she has a strong heart will want to see to the latest and battles her way among the roughs in styles and the perfections of their

of the neighborhood who are very artistic.

"The Eyes of the World," the Big Feature Production Tonight and Tomorrow at the Lincoln

It seems almost a waste of time and anything about "Eyes of the World" effect for any one to attempt to write so well known is the book. One nice

million copies of it have been sold in the United States alone so it can hardly be seen that practically everyone is familiar with it.

It is also almost useless to say anything more than has already been said in praise of strong, manly, commanding Monroe Salisbury, or beautiful June North, the stars of the production except to remark in passing that here they fairly outdo themselves.

As to the production as a whole, nothing ever put on the screen has ever attracted such widespread attention or such favorable comment, so don't fail to see it.

Also a chapter of "Bound and Gagged," Special matinee Saturday.

At The Arizona Today

Big features have been coming to the Arizona several times a week, but this afternoon and evening Manager Potts has secured one of the latest D. W. Griffith photo productions with an all star cast. This five reel feature is one of exceptional merit. It has been secured by Manager Potts at an added expense for Arizona patrons. The all star cast in this picture includes, Elia Kazan, George Fawcett, Gloria Hope, Henry Wattrell, Robert Harron, Rosemary Theby, George Siegman and Maxfield Stanley. A one reel comedy with Burns and Studd as Pokes and Jinks in "Jolly Tarn" closes the show.

From three to four hundred Italian extra people will be used in these scenes. The duplicate of one of New York's large hotels and a large mask ball are other features of the features of the picture.

Alice Brady has a highly dramatic role as Sylvia Stone, daughter of Major Stone a wealthy New Yorker who, unknown to her is the editor of an underground blackmailing society sheet. Sylvia has been brought up in Italy by an aunt and falls in love with Future Formi, a celebrated Italian tenor.

Kenneth Webb, who has been responsible for a number of Miss Brady's photoplays, will direct. The beautiful clothes and a greater amount of them than she has been in many of the Columbia's tonight and tomorrow. The first half of the picture is laid in Italy and the script calls for elaborate sets of Italian gardens, villas and certainly is fashionable.

With Her Back Against The Wall She Fought Off The "Shadow" She Loved. See Her At The Temple Tonight

Why Wade Hildreth a proper young Englishman went to the dressing room of an American comedy queen, he did not know, except that some blind impulse led him to obey a mysterious note dropped into his hands while in the theatre box.

For a moment he hesitated, then summoning up his courage, he knocked twice on the door of Morn Light, the star of New York Follies.

And the young Englishman, alone and a stranger in New York, put his faith in this little slip of a woman of the stage.

The unravelling of an absorbing mystery plot of love and intrigue takes place in "Love," the Universal feature to be shown at the Temple to-night.

An exciting chapter of "Bound and Gagged" will also be shown.

# Harry Carey King of the Gallopers, in *A Gun Fighting Gentleman*

Harry Carey does not let a little thing like this disturb him. Before the last fade-out he has changed the sentiments of the beautiful heroine in a picture that will hold you spellbound.

It's a UNIVERSAL Picture

Harry Carey, The Popular Western Star at The Exhibit Tonight and Tomorrow in "A Gun Fighting Gentleman," a Ramping, Roaring Romance of the West—Also a Big V Comedy

"Cheyenne Harry," owner of the biggest cattle ranch in his corner of the west, is having trouble with John Merritt, a land-grabbing Chicago packer.

Failing to get justice by his many letters to Merritt, "Cheyenne Harry" goes east and calls at the millionaire's mansion. At first Merritt refuses to see him. Then, to cause amusement for his daughter and her guests, he invites the "uncouth" westerner into his dining hall. To the amazement of the guests his table manners are faultless.

Then, to trick him into an embarrassing position, the guests eat with their knives. Harry, realizing that it is proper for the guest to follow the example of the host, does likewise. He leaves the house chagrined but more determined than ever to get justice from Merritt.

How he accomplishes this is shown in "A Gun Fighting Gentleman," the Universal photoplay starring Harry Carey. It will be shown at the Exhibit Tonight and tomorrow. Also a Big V Comedy.

## HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Tea at any pharmacy. Take a tablespoonful of this Hamburg Tea, put a cup of boiling water upon it, pour through a sieve and drink a teacupful at any time. It is the most effective way to break a cold and cure grippe, as it opens the pores, relieves congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

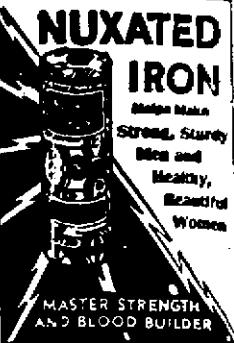

# Plan To Build Homes

CHILLCOTHE Jan. 30.—The home building proposition is being considered by a number of local business men and there is strong probability that a company will be organized to encourage and finance a future building up of second mortgage bonds. At least a score of business men have signified their willingness to join in such a business proposition to co-operate with the building and loan associations and work out a solution that will result in the construction of a number of homes in the city.

## CHILDLESS MARRIAGE ANNULLED

MILAN, January 20.—The annulment of a marriage has been obtained here solely on the grounds that it was childless. This decision is expected to be followed by numerous applications for annulment on similar grounds for there is no divorce in Italy.

The action of the tribunal is endorsed by the Italian press as a whole, and the Socialists have gone so far as to propose a measure for the introduction into the chamber proposing that marriages shall be compulsorily annulled if no children result from them.

# N. & W. Football Team Runs Up Big Score At Festal Board

## P. H. S. Basketeers Are All Set For Huntington Tonight

### Gridiron Exponents Enjoy Delightful Social Session

Pass of last October and November, when they played on a sea of mud at Millbrook against some of the best gridiron aggregations ever brought to Portsmouth, were recalled last night when the N. & W. football team enjoyed a banquet at the Jake Pfan party on Eleventh street, the members of the team and invited guests being royally entertained from eight until the midnight hour.

It was one big night for the players and while around the festive board the various team members recalled the time when they had partaken of "neds" away on Sunday trips and then compared the menu with what was placed before them last night. Like the football season the banquet was a big success. Mayor William N. Gatemann and G. F. Turley, N. & W. terminal trainmaster, being present as guests of honor. Other invited guests include Hugh Rues, Eddie Witherow, Leslie Flowers, Prof. Earle Transue, of Cincinnati, "Doc" Deffebaugh, Dana Craigmyer, E. L. Schuck, F. W. Putz, Dr. Gilbert McElwain, Robert Mansfield, who also officiated in several games, said that the N. & W. team was the best that had represented Portsmouth and that on the one good day of the season the team had performed like a championship eleven.

Captain Montgomery in his remarks spoke of how the team was handicapped without a suitable place to practice and because so many of the players worked at times when practice was held. He urged co-operation for a better team next season. Prof. Transue, E. L. Schuck, and the following players, S. Phillips, C. Phillips, Adams, Kendall, Molster and Duewell made a few remarks, the speaking program closing with Mr. Turley speaking of the fine record of the team this past season, the only man on the record being the defeat at Ironon.

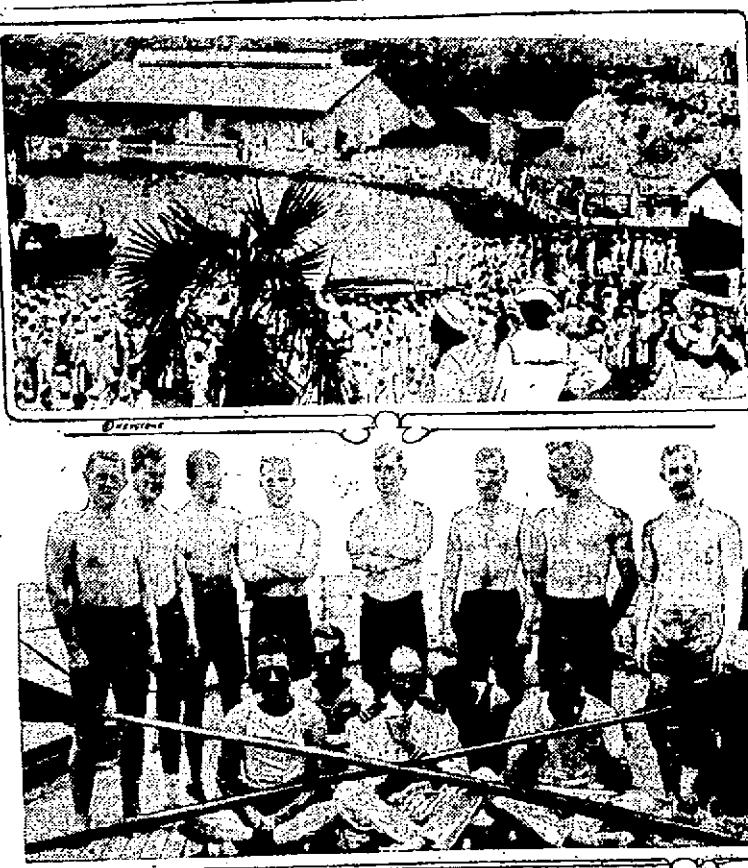

After the banquet session closed the team went into business session and re-elected August Putz, manager for the season of 1920. Orrville Montgomery was re-elected captain. A committee composed of Montgomery, Adams and Putz will look into the matter of forming a Portsmouth Athletic club. The members also decided to change the name of the team next season, the name to be selected later. Duewell, C. Phillips and Rickey were appointed a committee to plan the duties of a secretary and treasurer. A meeting of the entire team will be called in the near future by Chairman Kendall.

The members of the team present were Orrville Montgomery, Pat Shoemaker, Gilbert Kendall, F. W. Rickey, S. Phillips, D. Adams, Theodore Webb, Keppner Taylor, Norman Duewell, C. Phillips, Dudley Molster, William P. John Hester and J. F. Jackson.

## WOULD PUT IT TO TEST

**M**AYOR GABLEMAN has vetoed the ordinance, which provided for the payment of a compromise sum to the McGowans, constructors of the waterworks, for an alleged balance due under the contract.

The mayor's objection is that the claim in its entirety is not just and therefore none of it should be paid. As we understand the McGowans' claim \$40,000, but are willing to compromise for \$22,000.

Thus an old sore returns to plague us.

The waterworks has had an ill career. Its cost was far underestimated at first and a second election had to be held to authorize bonds for its erection. Then it turned out that the additional funds thus provided were not adequate and so there came a third vote for more bonds and money. Eventually the system was pronounced completed and it was put in operation, and trouble galore ensued. First the machinery wouldn't run and when that was patched up the intake pipes refused to "function." Always something was going wrong until there came the huge catastrophe of the reservoir bursting. More or less, principally more, has been experienced intermittently in keeping the plant going.

Meantime the financial resources of the city have been strained in meeting the bills for "extras," charged under the contract it is claimed, and for repairs.

The position the Mayor takes on this latest development, or one rather that has long hung over us, is that if the McGowans made honest charges in excess of the contract price and did so rightfully under the terms of the contract, they are entitled to full payment thereof; either that are entitled to none. So much anyway has been said and charged about the construction of the plant that the public has a right to know the truth thereof and it seems the best thing for the city to do is to stand a law suit, if one be brought, so that all the facts may be brought out. Considering all the circumstances that is a justifiable stand to take.

## THE FLU AND SOME FACTS

**I**NFLUENZA has appeared quite generally over the country and in a number of sections it is taking on the scope of a general epidemic. Fortunately it is not so virulent as during the latter part of 1918 and the first of 1919, when it claimed victims by the thousands.

It is not so long since then that the "wild and weird" stories that went broadcast that they can not be easily recalled. First and foremost of these is that it was introduced into the Allied armies by the Germans to decimate their ranks and reduce their effectiveness. This is not now seriously believed, but it is quite commonly accepted that the disease was brought to Spain by members of an interned submarine and from there spread over the world. What would seem, though, equally probable, is that it was brought from Asia, where most plagues find hibernation and most frequently origin. It is an established fact anyway, that it raged more extensively on that continent than elsewhere and was more fatal, though both circumstances may be accounted for in almost total lack of medical means of combatting it therein.

Another story of equal circulation and that caused far more alarm was that hundreds of thousands of soldiers in training were affected by the epidemic and "dying like flies." According to sober estimates the greatest number of selected prostrated by it at any one time was 14,000. Considering the number in camps this was not excessive, as compared with the average on the outside and not by any means equal to the prevalence in many communities.

According to the medical authority of the New York Herald the disease originated from a disease and the best means of guarding against it are bodily cleanliness and proper sanitation.

## BRINGING IT NEAR HOME

**F**OR a long period the public has been regaled with more or less lurid tales of the waste, extravagance and graft that existed in all government war enterprises from Hog Island to Seattle. Now our especial ears pick up with fresh interest in the tale that at Nitro, on the river above us, was the worst waste, extravagance and downright thievery of all.

Everybody from the ox-driver to the first contractor, from the youth of nine to hoary age of eighty, robbed, stole and plunders at Nitro with free and generous hand, in gobs and plumbets.

Yes, that's what they tell in a loud voice from the same chairman of the same committee that "unearthed" all these, piracies and swindles. Somehow, though, we don't place much store by this or similar antecedents. They sound a good deal like those atrocious whisperings that used to sneak and sulk about when the fight was on, slimy obstacles interposed that might slip up the government. Undoubtedly, there was some waste and extravagance, also

undoubtedly some stealing in the vast undertakings that the government was, by the exigencies of the demand, hurried into. But we are not all thieves, no more than we are all honest. Not every laborer cheated the government by claiming time for days and weeks that he never did a lick of work, not every contractor padded his payroll and material bills to defraud the nation. In war times labor applied itself in the mass just as diligently as it does now, in war times contractors were as reliable and honorable as they are now.

We would place far more store by accusations if they were made soberly and discreetly and not with a broad and sweeping inclusion that clamed out as its chief aim publicity.

BY O. O. MCINTYRE

**N**EW YORK, Jan. 20.—Thoughts while strolling around Manhattan: Is there anything so funny as life itself? There's an actor who owns the Koran. Most of them paddle rugs by money wearing a moccasin and lavender spots. Ah well! Lavender spots bring us just that much nearer the Commune. Speaking of humor I wonder if Bryan is really going to run. In the strapping fellow with the white Samoyed dog is Prince Paul Trouetley. Played cards with him one and he unclenched us by leading quarters with his teeth. Attributes his strength to gastronomia. He ought to see Dempsey gobble up a steak of carpenter a couple of mutton chops for breakfast. I'm not a tragedian, but I'm intellectual, as Clark Briggs says.

The doorman at the Plaza looks like a stern old general. Only he has more gold braid. Wonder what other old man has to have besides opening and shutting door? Think I'd make a good door opener but I'm weak on the shutting. At least my wife says so. Still doorman have to see for Caracol. John Macleod's poems and bronze statutes.

Speaking of statuary, our maid has a Venus de Milo with a clock set in her stomach. The incredible in food taste. Yet I once wore a plaid vest and mountainous food, shoes and thought I was a clod slicker. Heifetz, the violinist. Something of the spirit, uncle about those guys. Soulful eyes, and all that. They tell of a hardened Park Row reporter making a tour with Paderewski once. And be come back wearing an Elbert Hubbard tie. Glad I haven't anything laid away. Gives me a chance to break with some of my roughneck friends. Wife says I have too many of them. Still she likes Pedro, the Greek, who comes every noon to eat and wears his hat all the time in the house. Getting bigger. Think I'll go down in the Syrian quarter for dinner. Like that sweet-

My reckless mood again rose to the surface, and without giving it a chance to die down I answered smugly, "No."

Lynch did not know me well enough to be so informal. Yet deep in my heart I realized I was somehow to blame.

"Taxi's waiting. Come on," he said, putting a familiar hand upon my shoulder. I swiftly ducked. As if he sensed my displeasure, Wayland tactfully and graciously placed himself between us, handing me into the elevator with easy politeness.

"To the Lafayette," said Lynch to the chauffeur; then to us: "We'll have the cocktails there, anyway."

WHO'S WHO  
In The Days News

AUSTEN CHAMBERLAIN

In British diplomatic circles there is a good deal of speculation regarding the successor to Lord Grey as ambassador to the United States. Viscount Grey, in spite of unpopularity, has been buried in during his tenure as foreign secretary, is regarded by European diplomats as one of the best informed men on world affairs.

Among a dozen men mentioned in England as future ambassador to this country, one persistently talked of is Austen Chamberlain, chancellor of the exchequer.

Austen Chamberlain's father, the great imperialist Joseph Chamberlain, it is believed, will be recalled

aspired for his second wife, Mary Endicott, an American woman. Mary Endicott's companionship of her illustrious husband during the seven years he survived after being stricken with paralysis is one of the noblest examples of a woman's devotion in recent history.

The Chamberlains are democrats that repeatedly have declined titles. They came from the people and prefer to remain plain "Misters." That is one reason why it is believed Austen Chamberlain would prove particularly acceptable to Americans.

Another is the connection provided by Mary Endicott.

Joseph Chamberlain laid the foundations of his fortune in the screw and tack business, but the family was interested in a big firm of iron founders and also in "Kynoch's" British ammunition firm sometimes called the Krupps of England. Arthur Chamberlain, brother of Joseph, was head of Kynoch's for many years and also leader of the national temperance party. In religion they are Unitarians.

## "EUROPE MUST RELY ON ITS OWN RESOURCES IN RECOVERING FINANCIAL EQUILIBRIUM"--GLASS

WASHINGTON, Jan. 30.—Europe must rely on its own resources in recovering its financial equilibrium.

This was the interpretation here generally of the letter Secretary Glass has sent to a committee of the China Council of Commerce of the United States, which sought a government expression of the proposed international conference of financiers and commercial leaders to discuss reconstruction problems.

In a blunt statement of the facts, in the letter, Mr. Glass declared: "The American government has done all that it believes advisable and practical to aid Europe."

The conference, he added, would "cause confusion and revive old, dormant, to disappointment, of the treasury department does not object. Mr. Glass said, if the Chamber of Commerce of the United States which has charge of the details of the conference, wishes to name delegates to an informal conference "provided the scope and character and limitations of such a conference as well as the impossibility of United States government action is clearly understood."

If the people of the governments of Europe, Mr. Glass declared, "will distances to the San Francisco convention which will be chosen at the April primary file with their candidates statement saying they will support the conception whenever the people name as their choice for the presidential nomination." This is said to mean that if the names of Governor Cox and Senator Pomerene appear on the ballot, candidates for president, delegates will be pledged to support the one chosen.

Since the signing of the armistice, Mr. Glass pointed out, the treasury has made direct cash advances of \$2,100,000 to the allied governments, and in addition has made available \$7,618,000 to those governments in the purchase of their currencies in foreign United States expenditures in Europe. Besides the United States in unpaid interest on loans.

## NEITHER COX NOR POMERENE ENDORSED BY COMMITTEES

COLUMBUS, O., Jan. 30.—The Democratic state central and executive committee in joint meeting here yesterday refused to endorse either Gov. Cox or United States Senator Alice Newell as the party's candidate for president. Their action was in accordance with the expressed wish of Governor Cox.

Instead of making any endorsement they adopted a resolution saying as inasmuch as the Democratic party has been the founder and protector of the presidential preference primary system endorsements should be left to the Democratic voters themselves.

The resolution also asks that candidates to the San Francisco convention who will be chosen at the April primary file with their candidates statement saying they will support the conception whenever the people name as their choice for the presidential nomination.

W. A. Julian, Cincinnati manufacturer, was talked of for United States senator and mention also was made of William G. Sharp, of Elyria, former state budget commissioner, as a possible candidate for state auditor.

Outlining plans for the campaign, State Executive Chairman W. W. Durbin said: "Congress and the general assembly are making new thunder every day and the longer they stay in session the surer Democratic victory will be."

## YOUTHFUL DANDIT GOES TO DEATH CHAIR SMILING

OSWEGO, N. Y., Jan. 30.—The body of Gordon Fawcett Hamby, notorious murderer and bandit, who was electrocuted in Sing Sing prison late last night for the murder of two officials of a Brooklyn Savings Bank in December, 1918, will be buried in a local cemetery today. No one claimed the body and the mystery surrounding his paragraphs which he had studiously made to pass an income tax law.

Final enactment late yesterday of the Gordon bill to permit cities and other taxing districts to levy for sinking fund and interest charges outside the limitations of the Smith-Lever law, cleared the slate of a vexatious question which has been bothering legislatures for many years. Both houses accepted the conference committee's report on the bill, which provided the referendum feature as against the senate's original stand that the excess levies be made by the taxing officials without submission to popular vote.

An attorney disclosed that the brain of the youthful criminal was "normal" and well developed. Hamby maintained his composure to the last, smiling as he was strapped to the chair, and making a brief oral statement to the warden and witnesses just before life was snuffed out.

As he left the death house he called out to his companion: "Good-bye fellows! I always like to try everything once."

The murderer gave three letters to the warden, asked him to mail them and keep the addresses secret.

## OPENING STOCKS

NEW YORK, Jan. 30.—The stock market presented few features of interest at the dull and languid opening of today's session. Assets from General Motors, which forfeited a small part of yesterday's 13 point advance and Clevite Stock, which gained 12 points, reactions among important issues were limited to fractions. In the less prominent stocks a 5 point rise in Virginia Iron and 1 point for railway steel springs were the only noteworthy features. Early quotations indicated further disturbance in foreign exchange.

## 500 MILE TELEPHONE WEDDING IS LATEST

HUNTINGTON, W. Va., Jan. 30.—Huntington, W. Va., and Kane, Pa., a city of some 30,000 people, will be the two ends on Saturday evening at 6:30 o'clock of a 500-mile telephone wedding.

The principals will be Fred Wigley, age 27, a glass worker, of 318 Thirteenth street, and Miss Tillie Edwards, 22, of Kane, Pa., and daughter of Mr. and Mrs. Alonso Edwards, of Clarksburg, W. Va.

Rufus will be assisted by Rev. W. D. King, pastor of the First Methodist church of this city, and a minister of Kane—also "Miss Long Distance," star telephone operator of the Huntington exchange.

## Taxation Relief Measure Passes In Legislature

COLUMBUS, O., Jan. 30.—Two major taxation propositions, the classification amendment and the debt limitation proposal, of the legislature's taxation program, unless another effort should be made to pass an income tax law.

Final enactment late yesterday of the Gordon bill to permit cities and other taxing districts to levy for sinking fund and interest charges outside the limitations of the Smith-Lever law, cleared the slate of a vexatious question which has been bothering legislatures for many years. Both houses accepted the conference committee's report on the bill, which provided the referendum feature as against the senate's original stand that the excess levies be made by the taxing officials without submission to popular vote.

Both the classification and the debt limitation proposals probably will be taken up next Tuesday when the legislature resumes its session.

Because it was not passed as an emergency, the bill will not become effective until about May 1. Governor

## THREE CENTS A MILE RAILROAD FARE IN OHIO VOTED BY THE LEGISLATURE, EFFECTIVE MAY 1

COLUMBUS, O., Jan. 30.—If you have any railroad traveling to do, put it off till March 1, and then do it all between that date and May 1.

This advice was being given last night by legislators to their friends after the senate had passed the Pearson bill, repealing the two cent fare law and fixing the maximum rate at three cents. The bill had passed the house and was ready for presentation to Governor Cox.

Because it was not passed as an emergency, the bill will not become effective until about May 1. Governor

# N. & W. Football Team Runs Up Big Score At Festal Board

## P. H. S. Basketeers Are All Set For Huntington Tonight

### Gridiron Exponents Enjoy Delightful Social Session

Days of last October and November, when they played on a sea of mud at Millbrook against some of the best gridiron aggregations ever brought to Portsmouth, were recalled last night when the N. & W. football team enjoyed a banquet at the Jake Pfau's place on Eleventh street, the members of the team and invited guests being royally entertained from eight until the midnight hour.

It was one big night for the players and while around the festive board the various team members recalled the times when they had partaken of "meals" away on Sunday trips and then compared the menu with what was placed before them last night.

Like the football season the banquet was a big success. Mayor William N. Gableman and G. F. Turley, N. & W. terminal trainmaster, being present as guests of honor. Other invited guests include Hugh Ruell, Eddie Witherow, Leslie Flowers, Prof. Earl Transue, of Cincinnati, "Doc" Duffinbaugh, Dana Craigigly, E. L. Schenck, F. W. Putzak, Dr. Gilbert Micklethwait, E. Mansfield and P. C. Bradford.

Before the banquet, Messrs. Bradford, Ruell, Witherow, Flowers and Duffinbaugh entertained with piano music, solo numbers and readings.

At nine the banquet was served by Mr. Pfau and his corps of able assistants. The following menu made a big hit with the guests, and honors as to who could eat the most were about equally divided between Adams and Moritz, both boys forgetting they were out of the army and calling for "seconds."

Captain Montgomery introduced G. F. Turley as the toastmaster and after his timely remarks called upon Mayor Gableman, who thanked the boys for their invitation and hospitality and said that although he was not a football fan he was for the N. & W. team always. He spoke of the good team this year and predicted a great future for the aggregation which obtained such a good start last season. He urged co-operation between the baseball interests and football interests and

announced the baseball season would open earlier and close earlier so football could get an early start.

Manager August Putzak passed up his chance to talk and then Dr. Micklethwait was called upon for a few words. He said he was proud of the team and thought that the team was a real booster for the city. Baseball boosts the city all summer and in the fall football takes its place, said the speaker, who referred some of the games this past season. P. W. Bixley paid his respects to the manager and captain and then recalled the days of football in 1904-05-07, and how he was glad of the chance to get into the game again. Robert Mansfield, who also officiated in several games, said that the N. & W. team was the best that had represented Portsmouth and that on the one good day of the season the team had performed like a championship eleven.

Captain Montgomery in his remarks

spoke of how the team was handicapped without a suitable place to practice and because so many of the players worked at times when practice was held. He urged co-operation for a better team next season. Prof. Transue, E. L. Schenck, and the following players, S. Phillips, C. Phillips, Adams, Kendall, Moritz and Duewell made a few remarks, the speaking program closing with Mr. Turley speaking of the fine record of the team this past season, the only mar on the record being the defeat at Tinton.

After the banquet session closed the team went into business session and re-elected August Putzak manager for the season of 1920. Orville Montgomery was re-elected captain. A committee composed of Montgomery, Adams and Putzak will look into the matter of forming a Portsmouth Athletic club. The membership also decided to change the name of the team next season, the name to be selected later. Duewell, C. Phillips and Bixley were appointed a committee to plan the duties of a secretary and treasurer. A meeting of the entire team will be called in the near future by Chairman Kendall.

The members of the team present

were Orville Montgomery, Pat Shoemaker, Gilford Kendall, F. W. Bixley, S. Phillips, D. Adams, Theodore Webb, Keiper Taylor, Norman Duewell, C. Phillips, Dudley Moritz, William Prior, John Hester and L. P. Jackson.

## WOULD PUT IT TO TEST

**M**AYOR GABLEMAN has vetoed the ordinance, which provided for the payment of a compromise sum to the McGowans, constructors of the waterworks, for an alleged balance due under the contract.

The mayor's objection is that the claim in its entirety is not just and therefore none of it should be paid. As we understand the McGowans claim \$49,000, but are willing to compromise for \$2,600.

Thus an old sore returns to plague us.

The waterworks has had an ill career. Its cost was far underestimated at first and a second election had to be held to authorize bonds for its erection. Then it turned out that the additional funds thus provided were not adequate and so there came a third vote for more bonds and money. Eventually the system was pronounced completed and it was put in operation and trouble followed. First the machinery wouldn't run and when that was patched up the intake pipes refused to "function." Always something was going wrong until there came the huge catastrophe of the reservoir bursting. More or less, principally more, has been experienced intermittently in keeping the plant going.

Meantime the financial resources of the city have been strained in meeting the bills for "extras," charged under the contract it is claimed, and for repairs.

The position the Mayor takes on this latest development, at one earlier that has long hung over is, that if the McGowans made honest charges in excess of the contract price and did so rightfully under the terms of the contract, they are entitled to full payment thereof; either that are entitled to none. So much anyway has been said and charged about the construction of the plant that the public has a right to know the truth thereof and it seems the best thing for the city to do is to stand a law suit, if one be brought, so that all the facts may be brought out. Considering all the circumstances that is a justifiable stand to take.

## THE FLU AND SOME FACTS

**I**NFLUENZA has appeared quite generally over the country and in a number of sections it is taking on the scope of a general epidemic. Fortunately it is not so virulent as during the latter part of 1918 and the first of 1919, when it claimed victims by the thousands.

It is not so long since then that the "wild and weird" stories that went broadcast that they can not be easily recalled. First and foremost of these is that it was introduced into the Allied armies by the Germans to decimate their ranks and reduce their effectiveness. This is not now seriously believed, but it is quite commonly accepted that the disease was brought to Spain by members of an interned submarine and from there spread over the world. What would seem, though equally probable, is that it was brought from Asia, where most plagues find hibernation and most frequently origin. It is an established fact anyway, that it raged more extensively on that continent than elsewhere and was more fatal, though both circumstances may be accounted for in almost total lack of medical means of combating it therein.

Another story of equal circulation and that caused far more alarm was that hundreds of thousands of soldiers in training were affected by the epidemic and "dying like flies." According to other estimates the greatest number of selected prostrated by it at any one time was 14,000. Considering the number in camps this was not excessive, as compared with the average on the outside and not by any means equal to the prevalence in many communities.

According to the medical authority of the New York Herald the disease originated from a disease and the best means of guarding against it are bodily cleanliness and proper sanitation.

## BRINGING IT NEAR HOME

**F**OR a long period the public has been regaled with more or less lurid tales of the waste, extravagance and graft that existed in all government war enterprises from Hog Island to Seattle. Now our especial ears pick up with fresh interest in the tale that at Nitro, on the river above us, was the worst waste, extravagance and downright thievery of all.

Everybody from the ox-driver to the first contractor, from the youth of nine to hoary age of eighty, robbed, stole and plundered at Nitro with a free and generous hand, in gobs and in bags.

Yes, that's what they tell in a loud voice from the same chairmen of the same committee that "sweathearted" all these pirates and swindlers. Somehow, though, we don't place much store by this or similar anecdotes. They sound a good deal like those atrocious whisperings that used to sneak and talk about when the fight was on, slimy obstacles interposed that might slip up the government.

Undoubtedly, there was some waste and extravagance, also

undoubtedly some stealing in the vast undertakings that the government had, by the exigencies of the demand, hurried into. But we are not all thieves, no more than are we all honest. Not every laborer cheated the government by claiming time for days and weeks that he never did a lick of work, not every contractor padded his payroll and material bills to defraud the nation. In war times labor applied itself in the mass just as diligently as it does now; in war times contractors were as reliable and honorable as they are now.

We would place far more store by accusations if they were made soberly and discreetly and not with a broad and sweeping inclusion that elminated out as its chief aim publicity.

WHO'S WHO  
In The Days News

AUSTEN CHAMBERLAIN

In British diplomatic circles there is a good deal of speculation regarding the successor to Lord Grey as ambassador to the United States. Viscount Grey, in spite of unpopularity, is regarded as one of the best informed men on world affairs.

Among a dozen men mentioned in England as future ambassadors to this country, one prominently talked of is Austen Chamberlain, chamberlain of the ex-queen.

Austen Chamberlain's father, the great impre-

soner, Joseph Chamberlain, is

revered for his second wife, Mary Elizabeth, an American woman. Mary

Endicott's companionship of her blis-

sous husband during the seven years

he survived after being stricken with paralysis is one of the noblest ex-

amples of a woman's devotion to her

husband.

The Chamberlains are democrats

that repeatedly have declined titles

they came from the people and de-

ferred to remain plain "Mister."

That is one reason why it is believed Aus-

ten Chamberlain would prove par-

icularly acceptable to Americans.

Another is the connection provided by

Mary Endicott.

Joseph Chamberlain held the foun-

dation of his fortune in the screw

and tick business, but the family was

interested in a big firm of iron found-

ers and also in "Kyns," the British

ammunition firm sometimes called the

Kyns of England. Arthur Chau-

melton, brother of Joseph, was head

of Kyns for many years and also

leader of the national temperance

party. In religion they are Unitar-

ians.
